

Scheme of 'Venture Capital Fund for Scheduled Castes'

OPERATIONAL GUIDELINES FOR FINANCIAL ASSISTANCE TO SCHEDULED CASTE ENTREPRENEURS (AS REVISED IN 2017-18)

1. Background:

The then Finance Minister in his Interim Budget Speech for FY 2014-15 made on 17th February 2014, inter-alia, announced the setting up of a Venture Capital Fund for Scheduled Castes as follows:

“In order to promote entrepreneurship among the Scheduled Castes and to provide concessional finance to them, IFCI will set up a Venture Capital Fund for Scheduled Castes. I propose to provide an initial Capital of Rs. 200 crore, which can be supplemented every year”.

The said allocation is under Social Sector Initiatives in order to promote entrepreneurship among the scheduled castes and to provide concessional finance to them.

2. Objective of the Scheme:

“**Entrepreneurship**” relates to entrepreneurs managing businesses which are oriented towards innovation and growth technologies. The spirit of the above mentioned fund is to support those entrepreneurs who will create wealth and value for society and at the same time promoting profitable business.

The objectives of the Scheme are as below:

- It is a Social Sector Initiative to be implemented nationally in order to promote entrepreneurship among the scheduled caste population in India.
- Promote entrepreneurship amongst the Scheduled Castes who are oriented towards innovation and growth technologies.
- To provide concessional finance to the scheduled caste entrepreneurs, who will create wealth and value for society and at the same time will promote profitable businesses. The assets so created will also create forward/ backward linkage. It will further create chain effect in the locality.
- To increase financial inclusion for SC entrepreneurs and to motivate them for further growth of SC communities.
- To develop SC entrepreneurs economically.
- To enhance direct and indirect employment generation for SC population in India

3. Estimated SC Entrepreneur Population:

As per Census, 2011, the SC population is 20.13 crore, which constitutes 16.62% of the total population, in India. There is a huge potential in such a large economy like ours for such schemes out of which SC population can prosper and get opportunities to progress into the main stream.

Although, there is no reliable data on the profile of SC Entrepreneurs, but still, as per the rough estimates of various stake holders such as Dalit Indian Chamber of Commerce and Industry(DICCI) etc. there are 1000 Dalit entrepreneurs with combined turnover of Rs. Sixty thousand Crore. There are approx. 50 companies with turnover of Rs. 10 Crore or more. Hence, there is a huge demand for providing concessional finance to such companies which can uplift these businesses and such entrepreneurs.
